ESTABLISHED 1853.

COMMONWEALTH OF PENNSYLVANIA,
DEPARTMENT OF AGRICULTURE.

TO WHOM IT MAY CONCERN:

THIS IS TO CERTIFY, That I have inspected the nursery stock of Hoopes, Brother & Thomas, grown at West Chester, County of Chester, State of Pennsylvania, and found no indication of the presence of "San José Scale, Rosette, Yellows, or other injurious insects or diseases," that might be transferred on Nursery Stock from the nursery to the orchard or garden.

[Signed] G. G. GROFF,
Special Agent.

·····No. 3·····

HOOPES, BROTHER & THOMAS,

Maple... Avenue Nurseries.

WEST CHESTER, PA.

SEMI-ANNUAL TRADE LIST.

AUTUMN 1808.

WHILE we exercise the greatest care to have all our trees and plants genuine and reliable, and hold ourselves prepared to replace, on proper proof, all that may prove untrue, we do not give any warranty, expressed or implied, and, in case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not, at any time, be held responsible for a greater amount than the original price of the trees.

TWO MEDALS AND DIPLOMAS,

AWARDED BY

UNITED STATES CENTENNIAL COMMISSION.

F. S. HICKMAN, PR., WEST CHESTER, PA.

NOTICE TO PURCHASERS.

This list is intended for Nurserymen, Florists and Dealers only, and supersedes all previous editions. The prices are for the quantities named. Five Hundred, Fifty, and Five, will be furnished at the Thousand, Hundred, and Ten rates, respectively. On smaller quantities a discount from our retail prices will be made to the trade. Dealers will be furnished at the lowest rates, when their bills for stock purchased at one time exceed two hundred dollars.

Our Nurseries,

Covering 600 Acres, with a large amount of glass, are in the immediate vicinity of West Chester, which is situated twenty-seven miles west of Philadelphia, and with which we have nearly hourly communication by two railroads—one a direct road, the other a branch of the Pennsylvania Central, and from which we have a siding to our packing-house. By the latter route we are enabled to ship to all parts of the country, without transfer in Philadelphia, and at very low rates to distant points.

Our Office,

Situated at Maple Avenue Station, is ten minutes' walk from the Main Station in West Chester. Trains leave Broad Street Station, Philadelphia, for Maple Avenue, 6.15, 7.15, 8.30, 9.45, 11.45 A. M.; 12.45, 2.40, 4.20, 4.45, 5.40, 6.45, 8.15 and 11.45 P. M. Return, 5.55, 6.23, 6.41, 7.36, 8.43, 9.15, 10.23, 11.55 A. M.; 2.01, 4.51, 6.25 and 10.25 P. M. Leave Broad Street Station for West Chester, 6.15, 6.49, 7.15, 7.17, 8.30, 8.46, 9.45, 11.12, 11.45 A. M.; 12.45, 1.28, 2.40, 2.53, 3.48, 4.20, 4.32, 4.45, 4.55, 5.40, 5.44, 6.19, 6.45, 8.15, 8.23, 10.32, 11.43, and 11.45 P. M. Return, 5.15, 5.54, 6.00, 6.22, 6.40, 6.47, 7.35, 8.25, 8.42, 9.10, 9.14, 10.22, 11.25, 11.54 A. M.; 1.05, 2.00, 3.00, 4.50, 6.05, 6.24, 7.15, 10.20 and 10.24 P. M.

The Packing Season

Generally commences from the first to the middle of March in the Spring, and about the first of October in the Autumn. The season is not regulated, however, by any definite date, nor by the state of vegetation at the locality of the planter, but by the condition of the trees when received. Parties south of us may receive our trees some weeks after their season has opened, yet when planted they will give entire satisfaction.

Packing.

All orders for forwarding by freight or expresss except in car-load lots are carefully packed in bales or boxes, for which a charge is made sufficient to remunerate for the cost of material and time.

Shipping.

Our shipping facilities to the West by fast freight lines, and to New England and the South by various steamship lines, are unexcelled in rapidity of transit and low rates of freight charges.

Purchasers are requested to name the mode of conveyance by which they desire their shipments, OTHERWISE WE WILL DESPATCH TO THE BEST OF OUR JUDGMENT. AFTER DELIVERING TO THE FORWARDERS, ALL ARTICLES ARE ENTIRELY AT THE RISK OF THE PURCHASER; AND SHOULD ANY LOSS OR DELAY OCCUR, THE FORWARDERS ALONE MUST BE HELD RESPONSIBLE.

All packages delivered free of cartage at the Freight and Express Offices in West Chester.

Parties desiring stock shipped per express C. O. D., MUST accompany their order with cash to one-half the amount, otherwise no attention will be paid to the same.

Claims.

All claims for errors and deficiencies must be made within TEN DAYS after receipt of the stock. We desire to be notified of mistakes as early as possible, so that we may rectify the same without delay.

Terms, Cash.

The following Catalogues will be mailed on application, viz.:

No. 1. Illustrated and Descriptive Catalogue of Fruits, three 2-cent stamps.
No. 2. Illustrated and Descriptive Catalogue of Ornamental Trees, etc., 10 cts.
No. 3. Wholesale Trade List, free.

WEST CHESTER, PA., August, 1898. **Hoopes, Brother & Thomas.**

FRUIT DEPARTMENT.

THESE prices are for our selection of varieties, but we will adhere as closely as possible to the wish of the purchaser. In no case will we supply long lists of selected varieties of either Fruit or Ornamental Trees at wholesale rates, but will allow a discount on our retail prices proportionate to the amount of the order.

We desire to call special attention to our stock of *Purple Berberries*, as they have all been selected with the greatest care, and are unusually vigorous and healthy.			
THUNBERGI, 18 to 24 inches	1 00	8 00	
CALLICARPA—PURPUREA. A pretty little shrub with small pink flowers, and a great profusion of violet-colored berries in autumn, 2 to 3 feet	1 00	8 00	
CALYCANTHUS—GLAUCUS, 3 to 4 feet	1 00	8 00	70 00
We offer a heavy stock of this, the best of all the "Sweet-scented Shrubs," very thrifty and in unexceptionable health. Grand for belts and masses.			
CARAGANA—SIBERICA, 2 to 3 feet and 3 to 4 feet	1 00	8 00	
CEANOTHUS—AMERICANUS, 18 to 30 inches	1 00	8 00	
CEPHALANTHUS—OCCIDENTALIS, 3 to 4 feet	1 00		
CERCIS—JAPONICA (Japanese Red Bud), 18 to 30 inches	1 25	10 00	
JAPONICA (Japanese Red Bud), 2½ to 4 feet	1 50	12 00	110 00
This is one of the most beautiful large shrubs in cultivation, and should be more extensively planted. The correct name is *Cercis sinensis*. Our stock cannot fail to give entire satisfaction. Invaluable for grouping.			
CLETHRA—ALNIFOLIA, 2 to 3 feet	1 00	8 00	70 00
ACUMINATA, 2 to 3 feet	2 00		
COLUTEA—ARBORESCENS, 3 to 4 feet	1 00		
COMPTONIA—ASPLENIFOLIA (Sweet Fern), 18 to 24 in	1 00	8 00	
CORCHORUS—(Kerria Japonica), 4 to 5 feet	1 00	8 00	
CORNUS—ALBA, STOLONIFERA and SERICEA, 2 to 3 feet	1 00	8 00	
CIRCINATA. Scarce. Leaves very large. 2 to 3 feet	1 25	10 00	
MASCULA (Cornelian Cherry), 3 to 4 feet	1 00		
PANICULATA. Blooms profusely. Pure white. 4 to 5 ft...	1 00	8 00	
SPATHI, beautiful golden leaves, 2 to 3 feet	2 50		
VARIEGATA ALBA, pretty white markings, 18 to 30 inches...	2 50		
CORYLUS—LACINIATA, finely cut, fern-like foliage, 3 to 4 ft.	1 25		
CYDONIA—JAPONICA (Japan Quince), 18 to 30 inches	50	4 00	
JAPONICA (Japan Quince), 2 to 3 feet	80	7 00	
" " " 3 to 4 feet	1 00	8 00	
" " " brilliant red, 18 to 24 inches...	1 25	10 00	
The first three grades are seedlings of mixed colors, and are well adapted for hedging. The last are all solid crimson-scarlet in tint.			
DESMODIUM—PENDULAFLORUM. A semi-herbaceous shrub-like plant, blooming profusely, 12 to 18 inches	1 25	10 00	

	Per 10.	Per 100.	Per 1000.
DEUTZIA—CANDIDISSIMA, CRENATA, CRENATA VARIEGATA, CRENATA FL. PL., FORTUNII and PRIDE OF ROCHESTER, 3 to 4 feet, and 4 to 5 feet	$ 1 00	$ 8 00	
GRACILIS, 18 to 24 inches, transplanted, nice clumps	1 00	8 00	$ 60 00
Having grown a large stock of these desirable shrubs, we offer them at low rates, although unsurpassed for health and vigor. None but fine clumps sent out.			
DIMORPHANTHUS—MANSHURICUS. A very ornamental shrub, with long multifid leaves, imparting a decidedly subtropical aspect to a group, 6 to 7 feet	1 00	8 00	
DIRCA—PALUSTRIS (Leatherwood), 18 to 24 inches	1 50		
ELÆAGNUS—LONGIPES, 2 to 3 feet	1 25		
EUONYMUS—ALATUS. A rare choice shrub with curious corky bark; the foliage changing to a brilliant crimson in autumn, 2 to 3 feet	1 50		
EXOCHORDA—GRANDIFLORA, a rare Chinese shrub with pure white flowers, 3 to 4 feet, annually pruned	1 00	8 00	
FORSYTHIA—FORTUNII, VIRIDISSIMA and SUSPENSA, 2 to 4 feet	1 00	8 00	
HAMAMELIS—VIRGINICA (Witch Hazel). A native shrub blooming late in autumn, 18 to 30 inches	1 00	8 00	
HYDRANGEA—PANICULATA GRANDIFLORA, 2 to 3 feet	1 25	10 00	
RAMIS PICTUS (Red-branched), fine clumps	1 00	8 00	
THOS. HOGG. Pure white flowers, fine clumps	1 25	10 00	
HYPERICUM—DENSIFLORUM, 2 to 3 feet	1 00	8 00	
ILEX—VERTICILLATA (Black Alder), 12 to 18 inches, valuable for its brilliant scarlet, coral-like berries, in Autumn	1 50		
MONTICOLA. A scarce deciduous leaved species with reddish or purple fruit, 2 to 3 feet	1 25	10 00	
ITEA—VIRGINICA, 2 to 3 feet	1 00	8 00	
LILAC—COMMON PURPLE, 3 to 4 feet	1 00	8 00	
COMMON WHITE, 3 to 4 feet	1 00	8 00	
PERSIAN, small flowers, 4 to 5 feet	1 25	10 00	
" WHITE, 4 to 5 feet	1 25	10 00	
ROUGE DE MARLY, 2 to 3 feet	1 25		
JOSIKEA (Chionanthus-leaved Lilac). A very distinct and beautiful species. We offer strong one-year-old budded plants, 2 to 3 feet	1 50		
WEEPING (Pekinensis pendula), *new*, grafted on straight single stems, a decidedly pendulous and graceful form. The flowers are not unlike those of the Privet, but with larger panicles. 3 to 4 feet stems and two year-heads	4 00	30 00	
NEW VARIETIES, strong two and three-year buds (described below). Price, except otherwise noted	1 25	10 00	
Having tested a large number of the most popular and highly recommended foreign varieties as they were annually introduced, and selected only those for propagation that possessed a high order of merit, we confidently believe the following list embraces all the finest qualities known to this charming shrub.			
ALPHONSE LAVALLÉE, quite new, very large, fine blue, in compact trusses of double flowers, 12 to 18 inches.			
AMBROISE VERSCHAFFELT, very pretty pale pink, with large trusses. Good grower and quite distinct, 12 to 18 inches.			
AMETHYSTE. One of the newer varieties of merit. Large panicles of bluish-lilac, 18 to 24 inches.			
BERTHA DAMMANN. Large trusses of pure white flowers, very profuse bloomer, 12 to 18 inches	1 50		
CŒRULEA SUPERBA. Very large trusses of bluish-lilac flowers. Strong grower, 18 to 24 inches.			
FLORA PLENA, a valuable old variety with pretty pale lilac flowers, quite double, 2 to 3 feet.			

	Per 10.	Per 100.	Per 1000.
LILAC—Géant des Batailles, bright reddish-lilac in large attractive trusses, 18 to 30 inches.			
Japonica, a new and unique species from Japan, attaining the size of a tree, with large panicles of white flowers. Foliage very large, thick, and deep green color. Strong two-year-old plants, 3 to 4 feet	$ 1 50		
Jean Bart. A striking novelty with dark red buds, and double claret rose-colored flowers when fully open, 18 to 30 inches.			
La Tour d'Auvergne, another promising new double lilac, of strong growth, 18 to 30 inches.			
Le Gaulois, this elegant novelty blooms in large thyrsi of double bright red flowers, 18 to 30 inches	1 50		
Léon Simon. Very double bluish flowers in large trusses, 18 to 30 inches.			
Mme. Abel Chatenay, one of the most attractive novelties of recent introduction, with double milk-white flowers. Very compact panicles, 12 to 18 inches	1 75		
Mme. Lemoine. Decidedly one of the most beautiful and useful new varieties grown. Very large panicles of pure white, double flowers, 18 to 30 inches	1 75	$15 00	
Mme. Moser. Pure white single flowers, in fine trusses. Strong growth with large foliage, 12 to 18 inches	1 50		
Mathieu de Dombasle, one of the very best. Large truss of double rich reddish lilac, 18 to 30 inches.			
Maxime Cornu. One of the newer double lilacs, very attractive and desirable, 18 to 30 inches.			
Monsieur Lepage. An elegant new variety with very large flowers. Lilac-blue, whitish outside, and very distinct.			
Nigricans, trusses large and compact, very deep reddish lilac. Foliage dark green, 18 to 30 inches.			
Philémon, a new lilac not yet flowered in our collection, 12 to 18 inches.			
Pierre Joigneaux. One of the newer varieties with large panicles of double flowers, 18 to 24 inches.			
Pyramidalis, an exceedingly fine novelty with large full semi-double flowers. Rose colored, 2 to 3 feet.			
Professeur Stockart, dwarf grower, with large trusses of reddish-lilac flowers. Free bloomer, 18 to 30 inches.			
Renoncule, exceedingly double, short compact truss. Pale reddish lilac, 2 to 3 feet.			
Rothomagensis Metensis, pale reddish lilac, in long panicles. Growth very vigorous, 3 to 4 feet.			
Sénateur Volland, one of the finest double novelties of the season. Large and distinct, 18 to 30 inches.			
Souvenir de la Spath, the most distinct and beautiful variety in the collection, trusses immense, very compact, florets very large, deep purplish red, 18 to 30 inches	1 50	12 00	
Saugeana, a member of the Persian group, with reddish-purple flowers. Fine, strong grower, 3 to 4 feet.			
Ville de Troyes, an excellent new form with large trusses of rosy or reddish-lilac, 2 to 3 feet.			
Violacea, strong growth, very double and fine. Pale blue color in short compact trusses, 2 to 3 feet.			
Virginal, very distinct, large pure white flower and truss. Growth strong, free bloomer, 2 to 3 feet.			
Virginité, a beautiful new lilac with the same tint as the rose "Souvenir de la Malmaison." Very double and striking flowers, 18 to 24 inches.			
Villosa, another new Japanese species with foliage resembling the *White Fringe* (Chionanthus), and producing immense panicles of whitish or pale peach-col-			

	Per 10.	Per 100.	Per 1000.
ored flowers late in the season. We can now offer a large stock of this valuable new Lilac, 2 to 3 feet, two years from bud.			
LONICERA (Upright Honeysuckles)—FRAGRANTISSIMA, a very early sweet-scented species, 2 to 3 feet.....	$ 1 25		
GRANDIFLORA, large red bloom, 3 to 4 feet.....	1 00	$ 8 00	
MORROWI, new and desirable. Beautiful both in flower and fruit, 2 to 3 feet.....	1 25	10 00

TOMENTOSA, a pretty native species with dense panicles of rose-colored flowers, 2 to 3 feet.....	1 00	8 00	

	Per 10.	Per 100.	Per 1000.
SPIRÆA—TOMENTOSA ALBA, a new and distinct variety with pure white flowers, 12 to 18 inches	$ 1 25		
TRILOBATA, 2 to 3 feet, fine	1 00	$ 8 00	
VAN HOUTII, very attractive, 3 to 4 feet	1 00	8 00	
The last three named Spireas are among the very choicest shrubs known to florists, so that we have grown a heavy stock of exceedingly thrifty plants and can now offer them at low rates.			
SNOWBERRY—WHITE FRUITED, 2 to 3 feet and 3 to 4 feet	1 00	8 00	$ 60 00
RED FRUITED, 2 to 3 feet and 3 to 4 feet	1 00	8 00	60 00
Two native plants of the greatest importance for grouping on account of the wealth of berries produced. Our large blocks of these enable us to fill extensive orders with fine bushy stock at low rates.			
SAMBUCUS—CANADENSIS, 4 to 5 feet, fine	80	6 00	
The demand for this common wayside shrub has been so encouraging of late years, that we have grown a large healthy stock of it, and can assure purchasers it is much superior to ordinary collected plants.			
PUBENS, red-fruited, showy, 2 to 3 feet	1 25		
STAPHYLEA—BUMALDA, a rare and very beautiful shrub, 2 to 4 feet	1 50		
PINNATA, 12 to 18 inches	1 00		
STYRAX—JAPONICA. This rare gem is one of the most desirable shrubs known. When in bloom, it is literally covered with creamy-white bells, 2 to 3 feet	1 50	12 00	
JAPONICA, 4 to 5 feet, extra fine	1 75	15 00	
The rare merits of this exceedingly beautiful plant both for foliage and flowers are beyond question, but unfortunately it is almost unknown in collections. We have succeeded in growing a splendid stock of strong well furnished plants.			
STEPHANANDRA—FLEXUOSA. A very graceful shrub, with deeply cut, fern-like foliage, 2 to 3 feet	1 25	10 00	
TAMARIX—GALLICA, 4 to 5 feet	1 00	8 00	
TETRANDRA, 4 to 5 feet	1 25

" " " 4 to 5 feet	2 50	20 00	
STERILIS (Common Snowball), 3 to 4 feet	1 00	8 00	75 00
WEIGELA—CANDIDA, 3 to 4 feet	1 00	8 00	
ROSEA, 3 to 4 feet	1 00	8 00	
ROSEA NANA VAR. (Variegated-leaved), 2 to 3 feet	1 00	8 00	

STANDARD SHRUBS.

	Per 10.	Per 100.
The practice of training shrubs in tree form is comparatively new, and has proven unsurpassed for the pleasing effect produced in formal gardening work. As centres for beds, groups, etc., or for straight lines bordering walks, they are especially appropriate. A collection of assorted colors of the Althea will prove much more reliable and satisfactory than Tree Roses, while being equally as attractive when in bloom. The following heights annexed to each are intended for the stem only, measuring from the ground to the lowermost branch in the head.		
ALTHÆA—Finest double varieties as follows: AMARANTHUS, BICOLOR, COMTE DES FLANDRES, CARNEA PLENO, DUCHESSE DE BRABANT, ELEGANTISSIMA, PÆONIFLORA, RANUNCULÆFLORA, SANGUINEA, VIOLET CLAIR and BUIST'S VARIEGATED, 2-year heads, 3 to 4-feet stems	$ 3 50	$ 30 00

	Per 10.	Per 100.
DEUTZIA—CANDIDISSIMA, 3 to 4-feet stems	$ 2 00	
EXOCHORDA—GRANDIFLORA, 3 to 5-feet stems, and diameter of heads from 18 to 24 inches. When in full bloom these little trees resemble large balls of snow	4 00	$35 00
FORSYTHIA—FORTUNII, 3 to 4-feet stems	2 00	
PHILADELPHUS—NEPALENSIS and SANGUINEA, 3 to 4-feet stems	2 00	
PRIVET—CALIFORNIA, 3 to 4-feet stems	2 50	
IBOTA, 2 to 2½-feet stems, and heads 30 inches in diameter. These are very attractive, not only when in bloom but on account of the vigorous growth and clean light green foliage	3 50	
SPIREA—OPULIFOLIA, 3 to 4-feet stems	2 00	
STYRAX—JAPONICA, 3 to 4½-feet stems	4 00	
VIBURNUM—PLICATUM. We have succeeded in training a fine stock of this grand shrub in tree-form. These are moderately heavy and very healthy, 2 to 3-feet stems	3 50	30 00

OUR NEW ROSE.

The best new Rose of the season. Combines every required excellency. Most profuse bloomer of its class. Perfectly hardy and a free grower. Exhaling a dainty and delightful perfume. Should be in every collection.

We take great pleasure in offering to our patrons an entirely new and distinct Rose, especially adapted for bedding in the open ground, to which we have applied the name of

PINK BEDDER.

It was produced by crossing the General Jacqueminot (H. P.) and Virginia (Tea), but like so many of the cross-bred varieties, it shows little affinity to either parent.

In color it may be described as a charming peach-blow pink, or rather pale rose madder, deepening towards the centre, reminding one of a perfect Hermosa, although more double than the latter. It is also superior to Hermosa in the firmness of its flower-stem, so that the flowers all stand erect, while those of the latter when mature invariably bend over on account of their weak peduncles.

The flower is medium in size, very full, and beautifully cupped, and without exception, is the most profuse bloomer in our entire collection. In fact, either in the open ground or under glass, it is always a mass of flowers, from spring until early winter.

During the winter months, as well, with a slight amount of heat, it will continue to bloom, thus proving one of the most charming and reliable house plants we possess.

It has a fragrance peculiar to itself, being very delicate, not unlike that of the old Provence Rose. In regard to hardiness and general adaptability to our climate, we may say it has been fully tested for the past three winters, with unvarying and complete success. During the winter of 1896 and 1897, our specimen plant had no protection of any kind, and not a twig was injured, although some of the Hybrid Perpetual class in the immediate vicinity were badly cut up.

Strong plants from open ground, $3.50 per 10; $25.00 per 100.

ORNAMENTAL GRASSES.

Large orders for the following will be supplied at a discount from these prices, as we now have the largest stock of Ornamental Grasses in the country. Extra-sized clumps can be supplied at an advanced price.

RUDBECKIA (*Golden Glow*), a grand new hardy plant, with very double rich golden-yellow flowers	1 00	8 00

BULBS AND TUBERS.

	Per 10.	Per 100.
CANNAS—MADAME CROZY. Best of its type	$ 0 80	$ 6 00
AUSTRIA. One of the new orchid-flowering varieties, growing very tall, producing exceedingly large deep golden-yellow flowers in strong trusses. In masses it presents a grand sub-tropical effect	80	6 00
CHAS. HENDERSON. A beautiful new variety of last season, raised by M. Crozy, of dwarf habit, with deep rich crimson flowers. Decidedly an acquisition	80	6 00
CROWN JEWEL. A very distinct and new dwarf Canna. Golden-yellow, thickly dotted over with scarlet markings. Blooms freely	1 00	
FAIRY QUEEN (Wintzer). A very dwarf new canna growing only 15 inches high, with small flowers in the way of Queen Charlotte as to color. A good bloomer and very effective	1 50	
GOLDEN STAR. Of dwarf habit, a profuse bloomer, and producing compact heads of rich golden-yellow flowers. Very effective for bedding	1 00	
ITALIA. Another serviceable new orchid-flowering variety for bedding purposes. Color red with broad yellow margins, and of very large size. It is one of the most attractive novelties in the entire list of Cannas	1 25	10 00
KAISER WILHELM II. Rich brilliant scarlet, fine form	1 00	6 00
QUEEN CHARLOTTE. An elegant novelty with rich crimson petals broadly banded with golden-yellow	1 00	
THE *New Canna*, MAPLE AVENUE. (H. B. & T.) After a careful test during the past two seasons, this has proved on our grounds to be the most brilliant and striking variety we have used for bedding purposes. A large group planted exclusively with this novelty attracted more attention from visitors than any other of the popular Cannas. In color it is orange-vermilion, with tints of scarlet, and a delicate shade of crimson towards the calyx. In other words, it is a brilliant "Turkish-red." In the full sun the tint is gorgeous, and far more effective than any of its competitors It is of medium height, with deep rich green foliage, and produces numerous long, compact spikes all through the season. In fact, it might be called a continuous bloomer. Well-established plants.....25 cts. each	2 00	
SUNSET. (H. B. & T.) Our novelty for this season which has been tested in our trial grounds for the past three years under the name of No. 58 with unvarying success. We have no hesitation in recommending it for any situation, but it is remarkably charming when used as a border for the taller growing dark varieties. It is quite dwarf in habit attaining only a height of 20 or 24 inches, bearing a great profusion of bloom, not unlike *Mme. Crozy* in color, but lighter, and with a decided yellow band.		

	Per 10.	Per 100.
It produces large trusses and regular shaped flowers, 25 cts. each	$ 2 00	
GOLDEN STANDARD. (H. B. & T.) Our old No. 2. Height about 4 feet. A very profuse bloomer in long spikes of a pure chrome-yellow color, without markings of any kind excepting an occasional slight vermilion tint on the lower petal. Has been tested for the past two years.....25 cts. each	2 00	
MOTTLED QUEEN. (H. B. & T.) Our seedling No. 3, which has proven worthy of dissemination. It is a real gem and the perfection of a bedder. Large vermilion blotches on a pale yellow ground, the markings being so profuse as to frequently become confluent. A compact truss and perfectly shaped flower 25 cts. each.....	2 00	
ENCHANTRESS. (H. B. & T.) Our former No. 6. Height 3½ to 4 feet. In the way of *Florence Vaughn* but quite distinct. Numerous small vermilion spots on a rich golden-yellow ground. A fine large compact truss and a constant bloomer. A valuable new Canna.....25 cts. each	2 00	
DUKE OF MARLBORO. Introduced by *The Conard & Jones Co.*. Height 3 to 4 feet; handsome bluish-green foliage, large beautifully shaped flowers, borne erect in splendid well-filled trusses Dark rich velvety maroon, almost black. Entirely distinct and undoubtedly the darkest colored Canna yet introduced. 35c. each	3 00	
ROSEMAWR. Another of the *The Conard & Jones* seedlings. A dwarf compact grower, 2 to 2½ feet high, perfectly enormous, trusses, and flowers of the very largest size, petals frequently two inches wide. Color soft rosy-pink.....35 cts. each.	3 00

CHEAP HEDGE PLANTS.

A *California Privet hedge* is no longer a luxury, but a veritable necessity, excelled by no other plant. Easily grown, cheap, hardy, beautiful, free from injurious insects and diseases, bears pruning with impunity, grows rapidly, and not specially particular as to soil. Having been among the very first to recognize its value for hedging purposes, which the experience of many seasons has confirmed, we have annually increased our plantings so that we now have the pleasure of offering customers a magnificent stock, covering several acres, and all in perfect health.

These are carefully graded into various sizes and packed as economically as is consistent with safety, while the prices are placed as low as the high-grade quality of our stock will permit. The so-called *California Privet* perhaps combines more requisites for hedging purposes than any species of the genus, although the *Ibota Privet* forms a charming screen, owing to the beauty of its foliage combined with rapidity of growth. We are now prepared to offer a limited number of the latter at reasonable rates.

STANDARD SHRUBS.

An entirely new departure for landscape effect. Most beautiful of ornamental plants.

Hardy, unique, and easy to manage. More desirable than tree roses.

We claim to be the first to furnish the trade with this entirely new and charming addition to the lawn and garden.

Our collection of shrubs trained in tree form has received during the past two seasons almost the entire time of our skilled plantsmen, so that we take great pleasure in requesting horticulturists to inspect the result.

They are not merely old shrubs trimmed to a single stem, but have been grown from healthy young plants with the sole purpose of forming perfect little trees before sending them out to our customers. The heads have been persistently pinched back to induce a rounded, bushy outline, and all carefully staked to secure straight and smooth stems.

When in full bloom, our large blocks of standard Altheas won the admiration of all visitors without a single adverse criticism, and it would be difficult indeed to imagine a grander sight than these miniature trees with their regularly formed heads covered with flowers of every conceivable color.

Even the *Ibota* Privet, made a charming show when in bloom. The large round heads of dark shining foliage were relieved by a multitude of panicles of pure white flowers, unique in their peculiar appearance.

The Exochorda, pleasing at all times, and under any system of training, is especially so when grown as little trees. The heads clothed with a dense mass of bloom remind one of a large ball of snow. When out of flower, the bright glaucous foliage is also very attractive.
